

March 2013

**ND/JS**

Dear Parents/Carers and Students

We have been offered a great opportunity to welcome Miss Lauren Henry, a subject ambassador from Corpus Christi College, Oxford University, to speak to those students interested in taking their education to the highest of levels. This, I believe, is an important step in helping our students to realise their aspirations in achieving the very best and to support them in their desires to do so.

Miss Henry will be speaking on a number of areas including the process of applying for the top Russell Group universities, the realities of studying at this type of establishment as well as sharing her top tips for how best to prepare. Part of her talk will help to debunk some of the myths surrounding the university and students will also be given the chance to ask Miss Henry some of their own questions on the matter. As a biomedical student, she can also speak specifically on the routes for those interested in taking this area of study to the highest level. As a current student, her advice is invaluable to those considering this route into further education.

We will hold the seminar in the new lecture theatre from 3.20pm until around 4.00pm on Wednesday 27<sup>th</sup> March and would welcome all those wishing to attend. If you could sign and return the slip below to indicate your interest by no later than Tuesday 26<sup>th</sup> March I would very much appreciate it.

Yours faithfully

Mr Neil Davis  
Teacher of History  
Gifted and Talented Co-ordinator
