

St Crispin's School
Careers Information Evening
2012

Wednesday 7th November 2012

6.00 pm – 8.00pm

CAREERS

How to make the most of the Careers Information Evening

2012

On Wednesday 7th November 2012 the pupils/guardians of St Crispin's School will have the opportunity to meet and talk directly to a representative of a large number of organisations about careers, training, apprenticeships and further/higher education.

To gain the most from this event simply wander around and use this evening to find out more about the range of careers opportunities available.

If you are interested in a particular career, all you have to do is find the appropriate display stand and talk to the individual representatives. Should a particular career not be represented on the night you might find it useful to approach the many colleges and careers advice organisations who will be offering their services.

- Have your questions ready
- Be prepared to answer questions about yourself – your age, the qualifications you have achieved or hope to achieve, your main interests out of school etc.
- Bring this booklet and a pen to make notes, there is a section for notes at the end of this booklet.

As you can see, exhibitors are in the Main Hall and Dining Area. On the following pages you will also find:

- Alphabetical list of careers
- Alphabetical list of organisations attending.

Have a good evening.

WHAT IS THE RIGHT CAREER FOR ME?

Consider these questions:

- What are you good at?
- What are your strengths and weaknesses?
- Do you have a particular talent or skill?

Look at the list below and tick any that you think apply to you. Be honest. There is space at the bottom for you to add any other strengths, skills or talents you may have.

Skills	I like ...	I'm good at ..	I'm <u>not</u> good at ..
Talking to and helping people			
Persuading or influencing people			
Dealing with awkward people			
Teaching/Giving advice			
Organising people/information			
Research and analysis			
Presentations			
Working with machinery/my hands/practical skills			
Working with computers/technical equipment			
Problem solving/record keeping			
Team Work or working alone			
Working under pressure			
Foreign language			
Sport /Enterprise			
Art/Design/Photography/Drama			
Working with Animals			

Look down the columns you have ticked. Can you sum up yourself in a few sentences, ie :

I want a career where I can ... work in a team, use a computer/IT, do art and design, solve problems and be creative but where I don't have to do repetitive tasks, speak a foreign language or face dangerous situations.

I want a career where I can:

.....

.....

But where I don't have to:

.....

Below is an example of questions you might need to ask:

- What qualifications do I need ?
- How many ?
- Is there training on the job ?
- How much will I be paid ?
- What are the career prospects
- What personal qualities does the job need ?
- What age can I start ?
- Where can I find more information ?

COMPANY**REPRESENTING**

A	ACM	ACM specialise in music industry courses in: drum, bass, guitar, vocals, keyboard, music production, song writing, tour production and management
	Army	All Careers in the Army
