V4	12/2013	Minor changes	03/2014

Next Review of this Policy is due 12/2016

Aims of Drugs Education

St Crispin's School believes that drugs education is an essential part of health education which should address the students' needs at each stage of their development.

We aim:

- To discover what students know and identify their needs.
- To be aware of local trends in drug abuse.
- To deliver a programme for progressive and differentiated learning which caters to students' needs and is sensitive to individuals and groups.
- To help students to make informed choices and decisions.
- To develop students' personal initiative and ability to take responsibility.
- To encourage the recognition of personal skills and qualities in themselves and others.
- To help students maintain and develop relationships.
- To develop self-confidence and self-esteem.
- To develop students' assertiveness in appropriate situations.

The aim of this policy is to communicate clearly to staff, parents, visitors and students the manner in which drugs education will be delivered in this school, and to give guidance on ways to treat drug-related incidents. It also aims to establish good practice in relation to prescribed drugs, alcohol, tobacco and illegal drugs within the daily management of the school.

Content

Drugs education provides information and promotes healthy lifestyles and positive activities. It builds on, and disseminates good practice in, identifying what works best in prevention of substance misuse. It seeks to help and advise those students already at risk from drug abuse, including alcohol, tobacco and solvents.

(a) Knowledge and Information

Key Stage 3

Effects of smoking on health. Introduction to categories of drugs. Social and health effects of alcohol. Decision making. Assertiveness. Effect of alcohol abuse on family life. PHSE focus day. Visit from "QUIT".

Key Stage 4

Discussion and information on various drug forms. Physical and Mental effect of drugs and alcohol. PHSE focus day – an in depth study day.

(b) Values and Beliefs

Students will be encouraged to consider the importance of the following values, which reflect the values of the school:

- Respect and valuing of themselves and others

- Understanding of social settings and peer group pressure
- Responsibility for their own choices
- Responsibility to the school, friends, their homes and the wider community.

(c) Skills and Abilities

Students will be helped to develop the following skills:

- Coping strategies
- Decision making
- Assertiveness
- Self-esteem
- Communication.

Organisation

Drugs education will be taught mainly through the PSHCE and Science curriculum. Year 7 PSHCE Focus days address issues of risky behavior, decision making and staying safe. The Year 8 Healthy Lifestyle Day considers the consequences of smoking and the 'Into the Unknown' sessions address issues associated with drugs and alcohol. These days include visiting groups and speakers e.g. QUIT and ARC. Parents will be given the opportunity to experience the 'Into the Unknown' session. Aspects of the health issues concerned are included in the Science curriculum, especially the physical effects of smoking and alcohol. The Physical Education Department also considers the issue of drugs in sports. In Drama students dramatise their ideas and concerns and role play scenarios associated with considering risks and decision making.

Specific Issues

All aspects of drug abuse will be covered but more emphasis will be placed on issues relevant to the locality ie the use and effects of alcohol, tobacco, ecstasy cannabis, and emerging substances of misuse and less on solvent abuse and 'hard' drugs, where at present there is little usage in students of school age.

Health professions and visitors will be advised of the school's drug education policy.

Monitoring and Review

- Drugs education will be monitored by the PSHCE co-ordinator and the Assistant Head (pastoral).
- The Parents and Pupils governor's Committee will review the policy biennially.

Dissemination of the Policy

The policy and schemes of work are available on request to parents, through the PSHCE co-ordinator or through the Assistant Head (pastoral).
