

# Guide to installing the INSIGHT App

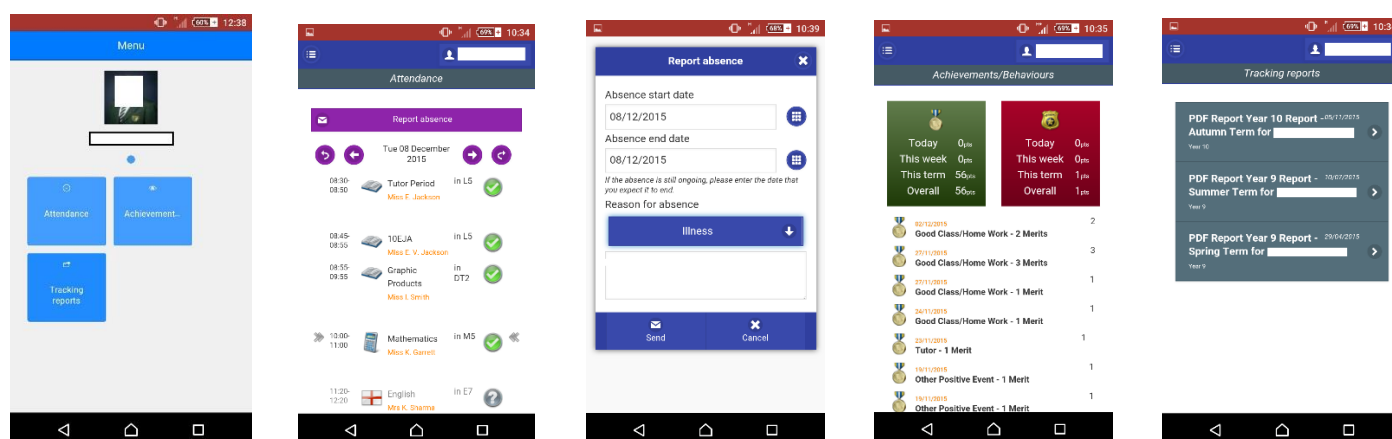

1. Go to the App Store or Play Store and search for "TASC Insight".  
(Please be aware that the screenshots shown on the app download pages may not reflect the pages/options we currently use with INSIGHT in school)
2. Download and install this as you would with any other app.
3. Once you have installed and opened the app, you will need to click the cog button on the top right of the screen then either scan the QR code on the INSIGHT homepage on the website on your PC, or enter the URL of your Insight page into the app.  
The URL for our school is <https://insight.st-crispins.wokingham.sch.uk/INSIGHT/>

4. You will need to login using the same username and password that you would on the website.

**We would suggest that for safety you do not click on the 'remember me' button if you are using the app on your phone or a shared device.**

You can select between the different screens by clicking on the  icon on the top left of the page. If you have more than one child in school you can swap between their profiles by clicking on the their photos icon on the front page.

You will still need to log into the website to see more details of any achievements/behaviours, report historical absences, view a full timetable, print tracking reports or make any updates to your personal details should you move house or change your phone number or email address.

If you have any queries or issues accessing the app please contact us at [insight@crispins.co.uk](mailto:insight@crispins.co.uk)
