

The Final Countdown

Booklet

5....4....3....2....1.....

Dear Year 11,

This booklet gives information about key revision sessions provided for you whilst you are on exam leave. You should take advantage of the supervised sessions, especially if you find it difficult to discipline your time revising alone at home.

This year you will see that we have introduced the idea of “**Final Countdown sessions**”; these are 25-minute sessions with your teacher just before your actual exam. Of course it is too late to learn anything new at that point, but your teacher will remind you what the paper you are about to take entails, how best to approach it and remind you about what you have learnt in the course in preparation for this big day. Make sure on the day that you have plenty of water and have eaten in the morning.

Please remember:

- You should wear full school uniform if you are attending the revision sessions or exam.
- Whilst we very much encourage you to come to school every day during your exam leave, you are not permitted to wander around the school site, play on the Astroturf, fields or skate park during lesson times. It disturbs other learners and, more importantly, means you are not revising. When you are in school you must be in a revision session or taking an exam.

Finally don't worry over the coming weeks if you are not sure what to do or have any questions or concerns come and talk to your teachers!

Mr Hinchliff

Deputy Headteacher

Additional Information

- **History** - additional revision classes will run at lunchtimes and after school on Tuesdays in Room 7
- **Music** – an additional revision session will run on Tuesday 21st May at lunchtime in Mu1
- Students studying **Equality and Diversity** will be returning to school on 24th June to study for the **Health and Nutrition** award
- **ICT OCR Nationals** – students can also work under the supervision of any ICT teacher during Year 11 lesson time. Deadline for work to be submitted by students is 28th June.

Website Based Revision

All students will have a clear idea from subject teachers about how to revise. In addition to this students are welcome to also use a variety of educational sites recommended by subject teachers.

Students may find the websites below of particular value, for particular subjects.

www.mymaths.co.uk

www.samlearning.com

www.kerboodle.com

www.bbc.co.uk/bitesize

The school website <http://www.crispins.co.uk/website/> will also allow students to gain access to the school VLE (Moodle) and to access their school documents from home via the new 'Home Access Plus+' facility.
