ST CRISPIN'S – A SPECIALIST SCHOOL IN MATHS, COMPUTING & LEADERSHIP

Excellence for all

Dear Parents & Carers,

**Student Access to files from Home.**

We thought you'd like to know that all students have now been shown our new facility to enable students to be able to access their school files on the school network from home. Students can also use the facility to save files that they are working on at home directly on to the school network. The new facility does not require any software to be installed on the PCs/laptops used at home. The direct link is:

<https://ra.st-crispins.wokingham.sch.uk/HAP/>

The link is also available on the school website [www.crispins.co.uk](http://www.crispins.co.uk) in the 'Information for students' section.

Since showing the students how this works in assemblies recently we are pleased to see that a growing number of them are successfully using this new online facility.

Kind regards

Mike Elward  
Assistant Head.
