

What do our students say.....

One of the best ways to find out about the A level course is chat to some of our current Year 12 and Year 13 students – find out what they like about the subject, how it fits with their other subjects and what their plans for the future are. Here are just a few things our current students say about the A level:

'My favourite part of the course is being able to discuss the challenging issues in our society - it gets you to think beyond our everyday thoughts and experiences.'

(Steph, Yr 13, Philosophy and Ethics, Psychology and History)

'I like the variety of topics studied in the A Level Philosophy and Ethics course – it really is a great introduction to a range of Philosophical and Ethical issues'

(Alice, Yr 13, Philosophy and Ethics, Drama and Biology)

'I chose to study Philosophy because it requires me to open my mind to other opinions and views of the world that are so different from my own. I also think it has really helped me to learn to firstly understand a concept, analyse it, and then compare it to others and consider its validity.'

(Emma, Yr 13, Philosophy and Ethics, Art and History)

'I am finding the Philosophy and Ethics AS Level really interesting – the content is very different to GCSE. Learning about Plato's Theory of Forms in Philosophy has been my favourite bit so far!'

(Alex, Yr 12)
