**DR/SH**

20<sup>th</sup> October 2020

Dear Parents/Carers

St Crispin's Science department is pleased to be able to offer discounted prices on the following revision guides:

**Collins Revision Guide & Work Book for AQA Combined Science £4.20 (£9.50 on Amazon)**

These books are advertised in year 7 each year. They will also be available for those year 8 families that did not purchase a Guide and Work Book last year.

We recommend these revision guides as they combine both revision materials, practice questions and mark schemes. This guide contains the relevant Biology, Chemistry and Physics content that students require for their exam. However, at St Crispin's we have a customised scheme of work that does not always match the order of content in the guide. Our website [www.tiny.cc/eb2](http://www.tiny.cc/eb2) contains further revision resources, including low stakes multiple choice quizzes and practice exam questions all organised by topic, so please have a look at these resources as well.

The revision guides are a great resource to use as a first stage in intervention when students are not on track to meet their target grade as they can be used independently and regularly at home.

We are also delighted to have secured our cheapest subscription to Tassomai. Many of our students benefited from the free access during lock down or may have previously subscribed. Each subscription lasts for one academic year only. All previous progress is saved.

For those new to Tassomai, it is an app that organises students' independent revision. It analyses performance and tailors its revision program to the individual so they can fill any gaps in their knowledge and practise for the paper. We are convinced it will be a magnificent and significant support for your son/daughter.

**1 Year Subscription to Tassomai £5.00**

**Recommended free resources**

We also recommend the use of Seneca Learning – a FREE website that helps structure students' revision and an excellent resource to reinforce class learning. Students can add in different units (for a range of subjects) and should choose "Science: KS3" for Science.

Please complete the online order form [here](#) and make your payment by **Tuesday 3<sup>rd</sup> November 2020**. Please note that these resources will arrive in school at different times and be issued to your son/daughter in class.

Yours faithfully,

Dr Daniel Rose  
**Head of Science**

Payment Procedures - We ask you to use the on-line payment system to pay for this particular Trip/activity if possible. Payments can be made online by debit or credit however we would be very grateful if you could use a debit card as the school is charged a higher fee for payments by credit card.

If you have an online account, please proceed as normal.

If you have not previously created an online account please email [onlinepayments@crispins.co.uk](mailto:onlinepayments@crispins.co.uk) to request a Pupil Link Code and a list of instructions.

If you choose to pay by cheque please ensure that the student's name, form and the name of the Trip/Activity are clearly written on the back of the cheque, which should be made payable to **'St Crispin's School'**.

If paying by cash it must be in a sealed envelope with the students name, form, amount enclosed, Trip/Activity clearly written on the outside.

Please note that students in receipt of the Pupil Premium Grant are eligible for financial support. Please contact the school office using [contact@crispins.co.uk](mailto:contact@crispins.co.uk)
