January 2021

Dear Parents/Carers,

<https://www.smallpeicetrust.org.uk/course-page/28598b41-0afc-ea11-a813-002248003e25>

On 15th and 16th February 2021, The Smallpeice Trust are running a free online course for students who wish to start their CyberFirst journey.

The course will run over two half-day, morning, structured sessions where the content will be delivered in a fun and interesting way.

This online course is open to any student in Year 9. Places are limited so don't delay and sign up fast. Please note: to apply for one of these courses, you will need to be able to attend on both half-days. You can only apply for the course on these dates which fall within our February half term.

This free online course is the first in a series of CyberFirst courses which start students on the exciting path to considering which GCSEs they will take and how computer science can play a key role in their career prospects. The aim of this course is to engage and encourage interest in cyber security and technology and to counter the stereotype that computer science is a subject that only leads to jobs in programming and coding.

Please do not hesitate to contact me if you require more information.

Yours faithfully,

Mrs A Beglin
Technology Department
