

# Destinations

Consistently securing places in Russell Group Universities, we are privileged to witness students embarking on prestigious undergraduate courses. Former St. Crispin's Sixth Formers are presently studying Law at University College London, Physics at the University of Exeter and Computer Science at the University of Bath. The ambition and determination of our students is inspiring and it has been wonderful to hear about the positive starts last year's cohort have made. Former Head Boy, Fynn Jordan, is settling into his Medicine course at St. George's University, London while our former Deputy Head Girl, Ellie Graham, has begun reading Politics, Philosophy and Economics at the University of Exeter.

With former students training with Fujitsu, Waitrose and the Fashion Retail Academy, St. Crispin's Sixth Formers are making a positive impact in high-quality apprenticeships covering a breadth of industries. Previous Head Girl, Amy Shute, took on a Head Office Business Admin Apprenticeship with British Airways and comes into school to support current students aiming to follow in her footsteps. Last year, following a rigorous application process including multiple online tests and a two hour interview, Joseph Bell secured an Aerospace Engineering Degree Apprenticeship at BAE Systems. We are proud to be a stepping stone to the future and cannot wait to support our new Sixth Formers in achieving their own individual aspirations.
