FOOD & DRINK

Careers Insight

Want to taste success in the country's largest manufacturing sector? The food and drink sector is booming, and it needs new recruits like you!

This sector is about taking what's grown by farmers and transforming it into our favourite foods. It takes a lot of people working together to make this happen, which means loads of career paths on offer. Depending on what you like to do, you could be processing ingredients, fixing machines on the production floor, processing meat or testing product quality.

Here are some entry-level jobs you could get, right now:

Production

Production workers play a key role in manufacturing all kinds of food products. They might measure and add ingredients, check for faults or weight samples to maintain quality standards.

Job/salary: Production operative (£10,000 – £15,000 starting salary)

Packaging

This covers work on the production line in a factory. The job may include packing finished food products into containers, adjusting settings of machines, and responding to any problems with the machinery.

Jobs/salary: Packaging operative, bottling operative (£12,000 – £15,000 starting salary)

Distribution

From bringing the raw ingredients to the factory to delivering the finished product to shops around the country, this area deals with the movement and storage of goods.

Job/salary: Warehouse worker (£11,500 – £14,000 starting salary)

Finding a job

Check your local newspaper or Job Centre for vacancies in the industry. There are jobs listed on the Careers in Food and Drink website too (www.careersinfoodanddrink.co.uk).
